

Podcasting

From GarageBand to the Weblog

In GargeBand:

- When your podcast is completed, SAVE it
- Go to SHARE/EXPORT PODCAST TO DISK
- Choose where you will save your podcast file (ready for upload to Mac OSX weblog server)
- We'll come back to this file in a moment

Open Safari (web browser):

- <http://weblog.lmsd.org/weblog/>
- Enter your username in the window on the right to create a weblog space
- On the right side of the screen, Click on LOGIN
- Enter your LMSD Network Username and Password
- If you haven't done so, Click on SETTINGS and complete the information on your podcast

Example:

Weblog Settings

Weblog Name:

Weblog Description:

Owner Name:

Owner Email:

Theme:

Readers:

To let anyone with weblog service access read your weblog, leave the field blank.

To give only specific users or groups access, enter their short names, one per line.

- Keep THEME to Blue
- Do not change Theme!
- Click on NEW ENTRY
 - Click on ADVANCED
 - Choose the File you created from above and click CHOOSE FILE
- Leave Trackback URL blank
- Complete the information
 - Title of your segment
 - Click SAVE

Subscribing to Your Podcast!

To subscribe to your podcast, click on the RSS/PODCAST (figure 2.1) on your weblog. This will subscribe you to your podcast. Each segment you upload, iTunes will automatically pull it down when you launch iTunes.
